

# THE KETTLE VALLEY RAILWAY SOCIETY

## Membership Application

The Kettle Valley Railway Society (KVRS) is the managing entity for the Kettle Valley Steam Railway (KVSR) that was built on people who are passionate about the preservation of an integral part of Canadian history. There is a certain romance about the railway that has to be experienced to be fully understood and we create that feeling with every train run.

Our steam locomotive, **No. 3716**, is our time machine, she's our sensory experience and our memory maker, she ties the railway together. There are many stories about how our country was made through tough and trying territories like these and our section of steel ribbon is among the last teachers about this bygone era. We owe it to the many people who came before us to ensure that their memory lasts and the future generations continue to enjoy this experience as it was meant to be.

The past will always be the past but as we move into the future we invite you to become a part of it all and share in the magic that is the KVSR.

We are always looking for excited and enthusiastic people to climb aboard! There are a number of benefits to becoming a member and volunteering:

- Valid for one year from date of new application or renewal
- 15% discount in The Trout Creek Trading Co. gift shop
- One free adult regular scenic train ride voucher per adult membership
- Two free adult regular scenic train ride vouchers per corporate membership
- One vote per adult member at AGM
- One vote per corporate member at AGM
- Corporate rate members receive recognition on KVSR website with own links included and brochure racking at the Station
- Members only reception following AGM hosted by Board of Directors

Some of the many volunteer jobs we are always in need of may include, but are not limited to:

- Coach Hosting
- Equipment Refurbishment
- Site Improvement
- Gardening / Landscaping
- Contributions to Fundraising Initiatives

Please contact the station at 250-494-8422 if you have other suggestions.

*“Heritage preservation is more than completing a restoration. It requires maintaining public interest, commitment and enjoyment. It is a tribute to the past, based on a conviction that some things are truly worth maintaining and continuing. A leap of imagination and creativity is often needed to see what something can become when often all that one sees is the neglected remains of something that was.” From Steam on the Kettle Valley, A Railway Heritage Remembered by Robert D. Turner.*
